Attorney and Counselor
125 North Main
Moab, Utah 84532

RE: Red Rock Mine
ACT/037/050
San Juan County, Utah

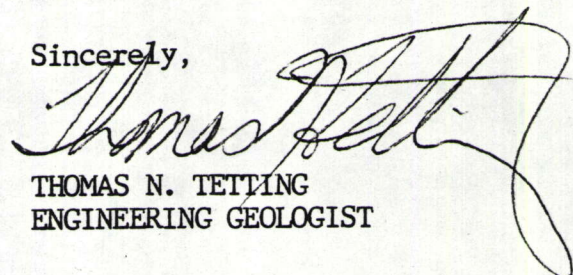

Dear Mr. Ruggeri:

After discussing the importance of meeting with Clayton Stocks and yourself at the earliest possible convenience, you suggested during our phone call on July 21, 1982 that I go ahead and finalize arrangements for the time and place. You are, therefore, requested to attend a pre-design conference at the Social Services Building, Second West and North Temple, Room 480, on August 11, 1982 at 1:00 p.m., to discuss the necessary permitting for continued operation of the Red Rock Mine.

Please be advised that it will be necessary at that time to provide certain information relevant to the design, extent and nature of current and future activity at the minesite. Information relative to the required Mining and Reclamation Plan (Revised Form MR-1) and various Health Department permits will be discussed. I hope you look upon this meeting as an attempt by the State to facilitate development of mining activity within the framework of existing laws.

Please contact me if there are any further questions regarding the nature of this business.

Sincerely,

THOMAS N. TETTING
ENGINEERING GEOLOGIST
